---

We will participate at 15th University of Zagreb fair with our robot dance application. The University of Zagreb Fair is organized for high school seniors, university students and anyone else who is interested. The Fair aims to inform prospective students about courses of study, the faculties' achievements in fields of science and technical equipment, curricula, and many other interesting details. The event will take part at Student Centre, Savska 25, Zagreb, during November 4-6 2010. More at <http://smotra.unizg.hr/> .
